

Overture® INSECTICIDE

The final note on thrips.™

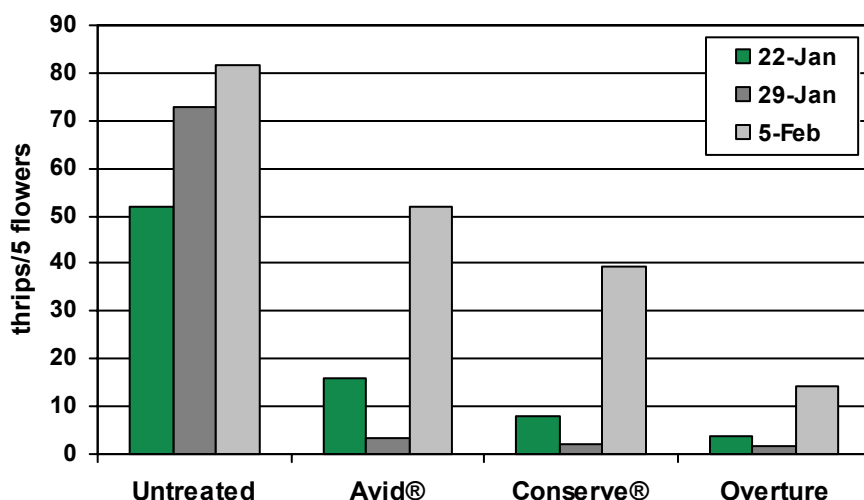

Thrips & Lepidopterous Larvae Control

Overture® Insecticide controls immature and adult thrips, and its novel mode of action (MOA) makes it an ideal rotation partner for thrips control. Overture works preventively or curatively by killing at stages of thrips. And, Overture also controls the larvae of various lepidopterous insect pests. Overture can be used on greenhouse-grown ornamentals including flowering & foliage crops, ground covers, shrubs & ornamental trees and non-bearing fruit & nut trees grown indoors.

Overture delivers:

- Consistent, effective control of thrips, including Western flower thrips
- Novel MOA for resistance management = excellent rotation partner
- Soft on most beneficial insects
- Controls defoliating larvae of various lepidopterous insect pests

Insect Pest	Application Method	Application Rate
Thrips including: <ul style="list-style-type: none"> • Western Flower Thrips • Chilli Thrips Lepidopterous larvae including: <ul style="list-style-type: none"> • Armyworm (Beet, Southern & Yellowstriped) • Azalea Caterpillar • Cabbage Looper • Fall Webworm • Gypsy Moth • Nantucket Pine Tip Moth • Spruce Budworm • Tent Caterpillar • Tobacco Budworm • Tobacco Hornworm 	Foliar Spray 100 gals of spray mixture will treat 20,000 sq ft Apply the spray mixture uniformly to all plant surfaces and to the point of runoff	8 oz/100 gals (0.175 lb ai/100 gals) (use four 2 oz WSP/100 gals)

Western Flower Thrips Control: Chrysanthemum

Curative control – all products applied at labeled rates
