FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

CHATEAU®
HERBICIDE SW

FOR PRE-EMERGENT CONTROL OF CERTAIN BROADLEAF WEEDS AND SUPPRESSION OF WILLOW-WEEED WHEN APPLIED PRIOR TO EMERGENCE OF TRANSPLANTED/NON-BEARING RASPBERRIES (BROADCAST APPLICATIONS) OR DIRECTED/DORMANT APPLICATIONS TO NON-BEARING RASPBERRIES

EPA Reg. No. 59639-99
EPA SLN No. WA-120011

This label for Chateau Herbicide SW expires and must not be distributed or used in accordance with this SLN registration after December 31, 2016.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of application. Follow all applicable directions, restrictions, Worker Protection Standard requirements and precautions on the EPA registered label.

GENERAL INFORMATION
Chateau Herbicide SW, at 2.2-4 oz per acre, can be applied to the soil after transplanting no.1 canes, but prior to emergence. Application after emergence of new growth will result in crop injury.

Chateau Herbicide SW, at 4-6 oz per acre, can be applied as a directed spray to the base of the primocanes older than 1 year when the canes are actively growing.

Chateau Herbicide SW, at 4-6 oz per acre, can be applied over the top of canes once the canes are dormant.

<tr>
<td>Dormant spray</td>
<td>One year</td>
<td>4-6</td>
<td>Apply broadcast to dormant raspberries. Application should be made to a weed free soil surface for pre-emergence weed control.</td>
</tr>
</tbody>
</table>
Restrictions/Precautions:

- Do not apply more than 6 ounces of Chateau SW per acre for newly established canes up to 1 year old or more than 9 ounces of Chateau SW per acre per year for canes older than 1 year.
- Do not apply more than two (2) applications per acre per year.
- Do not apply post transplant to cut roots.
- Do not apply this product when weather conditions favor spray drift from treated area.
- Do not apply this product to frozen or snow covered soil. Crop injury may occur from preemergence application made to poorly drained soils.
- Do not apply by air.
- For use under this SLN label do not apply this product through any type of irrigation system.
- Do not make a sequential application within 60 days of the first application.
- Use of vegetation filter strips along rivers, creeks, streams, wetlands or on the downhill side of fields where run-off could occur will minimize water runoff and is recommended.
- Follow the CROP ROTATIONAL RESTRICTIONS on the federal label.

WSDA's Aquatic Advisory:
This pesticide is toxic to non-target plants and aquatic invertebrates. Chateau Herbicide SW should not be used under this SLN label where impact on listed threatened or endangered species is likely. You may refer to the WSDA Endangered Species Program web site at [http://agr.wa.gov/PestFert/NatResources/EndangSpecies.aspx](http://agr.wa.gov/PestFert/NatResources/EndangSpecies.aspx), or contact the Washington Department of Fish & Wildlife, National Marine Fisheries Service (NOAA Fisheries) or US Fish & Wildlife Service for information regarding aquatic species listed as threatened or endangered. Consult the federal label for additional restrictions and precautions to protect aquatic organisms.”
WSDA Container Disposal Guidance:
Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading, because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the WSDA Waste Pesticide Program website at http://agr.wa.gov/PestFert/Pesticides/WastePesticide.aspx. Cleaned containers may also be disposed of in a sanitary landfill, if permitted by the county. Burning is not a legal method of container disposal in Washington.

RESISTANCE MANAGEMENT RECOMMENDATIONS
Chateau Herbicide SW is a Group 14 herbicide. Any weed population may contain or develop plants naturally resistant to Chateau Herbicide SW and other Group 14 herbicides. Weed species with acquired resistance to Group 14 herbicides may eventually dominate the weed population if Group 14 herbicides are used repeatedly in the same field or in successive years as the primary method of control for targeted species. This may result in partial or total loss of control of those species by Chateau Herbicide SW or other Group 14 herbicides.

To delay herbicide resistance, consider:
• Avoiding the consecutive use of Chateau SW or other target site of action Group 14 herbicides that might have a similar target site of action, on the same weed species.
• Using tank mixtures or premixes with herbicides from different target site of action Groups as long as the involved products are all registered for the same use, have different sites of action and are both effective at the tank mix or prepack rate on the weed(s) of concern.
• Basing herbicide use on a comprehensive Integrated Pest Management (IPM) program.
• Monitoring treated weed populations for loss of field efficacy.
• Contacting your local extension specialist, certified crop advisors and/or manufacturer for herbicide resistance management and/or integrated weed management recommendations for specific crops and resistant weed biotypes.

DISCLAIMER
This product when used on dormant raspberries may lead to crop injury, loss, or damage. Valent U.S.A. Corporation recommends that the user and/or grower test this product in order to determine its suitability for such intended use. Valent U.S.A. Corporation make this product available to the user and/or grower solely to the extent the benefit and utility, in the sole opinion of the user and/or grower, outweigh the extent of potential injury associated with the use of this product. The decision to use or not to use Chateau Herbicide must be made by each individual user and/or grower on the basis of possible crop injury from Chateau, the cost of alternatives methods, and other factors. Valent U.S.A. Corporation intends that because of the risk of failure to perform or crop damage that all such use is at the user’s and/or grower’s risk, to the extent consistent with applicable law.

RISKS OF USING THIS PRODUCT
The Buyer and User (referred to collectively herein as “Buyer”) of this product MUST be aware that there are inherent unintended risks associated with the use of this product.

It is impossible to eliminate all risks associated with the use of this product. Such risks arise from weather, soil conditions, off-target movement, unconventional farming techniques, presence of other materials, the manner of use or application, or other unknown factors, all of which are factors beyond the control of Valent U.S.A. Corporation. These risks can cause crop injury.

Valent U.S.A. Corporation does not agree to be an insurer of these risks beyond what is expressly warranted by this label. When you buy or use this product, you agree to accept these risks.

LIMITED WARRANTY
To the extent consistent with applicable law, Valent U.S.A. Corporation warrants that this product conforms to the chemical description on the label and is reasonably fit of the purposes stated in the Directions for Use, subject to the inherent risks described above, when used in accordance with the Directions for Use under normal conditions.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, VALENT U.S.A. CORPORATION MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS
LABEL. No agent or representative of Valent U.S.A. Corporation is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein.

LIMITATION OF LIABILITY
To the extent consistent with applicable law, Valent U.S.A. Corporation, the manufacturer, or the seller shall not be liable of any consequential, special, or indirect damages resulting from the use, handling, application, storage, or disposal of this product or for damages in the nature of penalties, and the buyer and the user waive any right that they may have to such damages.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED THE PURCHASE PRICE PAID OR AT VALENT U.S.A CORPORATION’S ELECTION, THE REPLACEMENT OF THE PRODUCT.

PROMPT NOTICE OF CLAIM
To the extent consistent with applicable law, Valent U.S.A. Corporation must have prompt notice of any claim so that an immediate inspection of buyer’s or user’s growing crops can be made. Buyer and all users shall promptly notify Valent U.S.A. Corporation or the seller of any claims, whether based on contract, negligence, strict liability, or other tort or otherwise be barred from any remedy.

NO AMENDMENTS
Valent and Seller offer this product, and Buyer accepts it, subject to the foregoing Disclaimer, Risks of Using This Product, Limited Warranty and Limitation of Liability, which may not be modified by any oral or written agreement.
