## Chateau® Complete: More Complete Burndown & Residual Control

Chateau® Complete Herbicide is a new, preemergence herbicide that is a premix of two, highly effective and proven modes of action.

In addition to targeting more than 90 of the toughest annual broadleaf and grass weeds, Chateau Complete offers an even better burndown aid with longer, more consistent residual control in one easy-to-use formulation.

- ▶ Multiple Modes of Action—Provides more consistent and effective control
- ▶ **Broad Spectrum**—Controls more than 90 annual broadleaf and grass weeds
- ▶ Long-Lasting—Stays where you put it; won't leach or co-distillate; no photodegradation
- ▶ **Weather-Ready**—Requires only ¼ inch of rainfall or irrigation for activation
- New Premix—Convenient and easy-to-use concentrated dry premix for more complete burn down and residual

#### Chateau Complete vs. Alion® Burndown Control (2021–2024 Summary)

Chateau Complete has equal or greater burndown control vs. the leading competitor in the same burndown program.
