ProGibb® LV Plus PGR—Low VOC Formulation

ProGibb® LV Plus Plant Growth Regulator is a high-potency, low volatile organic compound (VOC) liquid gibberellin formulation designed to meet strict air quality requirements.

- ▶ Twice the concentration of active ingredient as *ProGibb* 4%—2 grams active per fl oz
- ▶ Lowest emission potential (EP) liquid gibberellin product registered
- ▶ Non-flammable solvent system reduces storage and handling issues
- ▶ Smaller package footprint minimizes storage space and post-consumer waste
- ▶ National Organic Products (NOP) compliant for organic production

ProGibb LV Plus Uses on Table Grapes*

| Crop | Timing | Applications/ Season | fl oz/A | Grams A/A |
|---------------------------|------------------------------------------------|-------------------------|-----------------------|-----------------------|
| Cluster Stretch* | Cluster length 2–7 inches prior to blooming | 1–3 | 4–12 | 8–24 |
| Berry Thinning* | Bloom | 1–4 | 0.25–10 | 0.50–20 |
| Bump Spray* | After thinning; before sizing sprays | 1 | 8–12 | 16–24 |
| Berry Sizing Spray* | 3–14 mm berry size | 1–4 | 2–64 | 4–128 |
| Berry Sizing Cluster Dip* | 3–14 mm berry size | 1 | 0.2–0.5/ 5 gallons | 0.4–1.0/ 5 gallons |

*See product label for complete use instructions

Frequently Asked Questions about *ProGibb* LV Plus

Q. How many grams of gibberellic acid are in each fluid ounce of *ProGibb* LV Plus?

A: There are two (2) grams of gibberellic acid per fluid ounce of *ProGibb* LV Plus.

Q: If *ProGibb* LV Plus is twice the concentration of *ProGibb* 4% liquid, why is it only 5.7% AI and not 8%?

A: The solvent in *ProGibb* LV Plus is much heavier than the solvent in *ProGibb* 4%. This makes the percent active ingredient on a weight basis lower in *ProGibb* LV Plus than *ProGibb* 4%.

Q: How many grams active ingredient are in a ½ gallon bottle of *ProGibb* LV Plus?

A: Each ½ gallon bottle contains 128 grams gibberellic acid. This is equivalent to 1 gallon of *ProGibb* 4%.

Q: Other than adjusting my use rates, do I need to apply *ProGibb* LV Plus differently than any other *ProGibb* formulation.

A: No. *ProGibb* LV Plus should be used in the same manner as other *ProGibb* formulations.

Q: Will I see a difference in performance using *ProGibb* LV Plus versus other formulations?

A: Field studies have shown that when used at an equivalent amount of active ingredient, *ProGibb* LV Plus performs equivalent to other *ProGibb* formulations.

Q. What is the restricted entry interval for *ProGibb* LV Plus?

A: 4 hours

Q: What is the preharvest interval (PHI) for *ProGibb* LV Plus?

A: No PHI is required for this product.
