

Valor® SX: Proven Residual Control of Tough Weeds

Get proven control of tough weeds and rotational flexibility with Valor® SX Herbicide. With proven performance on a broad spectrum of weeds—like Palmer amaranth, waterhemp, lambsquarters, dandelion and marestail—*Valor SX* provides preemergence weed control in early preplant burndown and preemergence programs. *Valor SX* offers up to six weeks of residual weed control so that you can plan a timely postemergence herbicide application.

- ▶ **Broad Spectrum:** Excellent residual control of a broad spectrum of broadleaf weeds including Palmer amaranth and waterhemp
- ▶ **Flexibility:** Rotational flexibility to many crops such as corn, cotton, peanuts, rice, sorghum, soybeans and wheat in any geography
- ▶ **Residual Control:** Maintains 4 to 6 weeks residual control at the labeled rate
- ▶ **Effective, Low Use Rate:** Controls weeds at a lower labeled rate than the competition

Valor SX—Residual Control of Tough Weeds in Soybeans

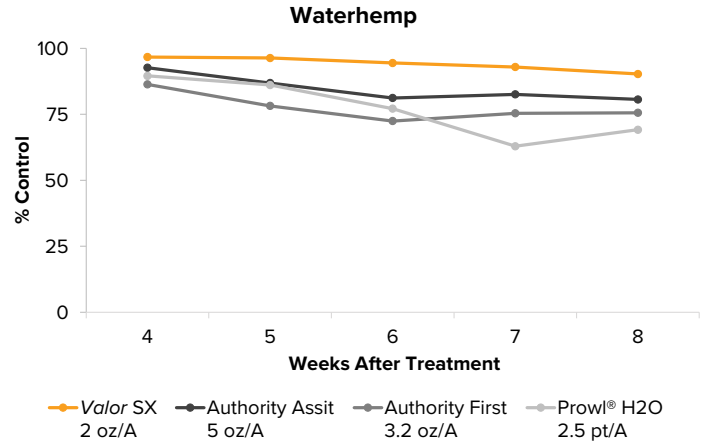

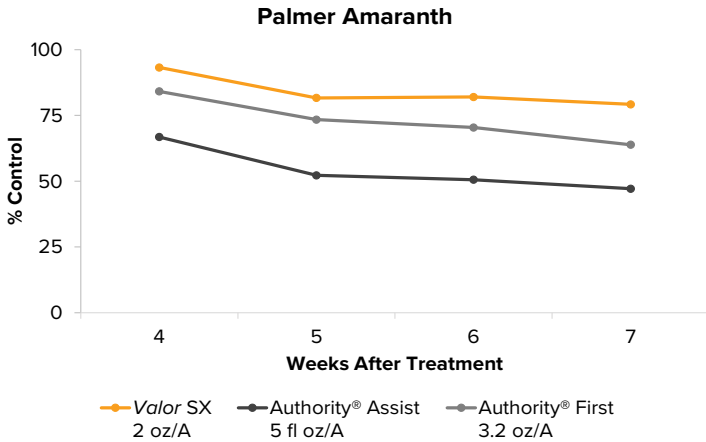

Untreated

Valor SX—30 days after treatment

Valor SX Maintains Control and Outperforms Competitors
