

Valor® XLT—Broad Spectrum Residual Weed Control

Valor® XLT Soybean Herbicide is the proven residual herbicide foundation for soybeans.

- ▶ **Now an approved tank mix partner in the Xtend System**
- ▶ **Broad Spectrum Control:** Two modes of action to control tough weeds like Palmer amaranth, waterhemp, marehail, ragweeds, lambsquarters and more
- ▶ **Long-Lasting Residual:** From 4–6 weeks after application
- ▶ **Effective, Low Use Rate:** Controls weeds at a lower labeled rate than the competition

Valor XLT Performance

How to Use

Rate	3–5 oz/A—higher rates result in longer residual and broader spectrum
Timing	Preplant, preemergence or fall applications
Spray Volume	10–20 gal/A
Method	Ground or air

Other Important Information

- ▶ Please refer to *Valor* XLT label for rate restrictions based on soil pH
- ▶ Consult label for state geographical restrictions

Valor XLT Performance on Tough Weeds
