Do you need a 3rd mode of action like
Metrabuzin for rigorous weed conditions like
heavy Palmer amaranth and Waterhemp?

☐ No

☐ Yes

Do you have a soil pH of 7.6 or higher?

☐ No

☐ Yes

FIERCE EZ

It looks like your fields could use strong residual protection from tough, broadleaf weeds with the excellent rotational flexibility of FIERCE EZ.

FIERCE MTZ

Your field would benefit most with protection against heavy Palmer amaranth & Waterhemp with three modes of action for maximum control from FIERCE MTZ.

FIERCE XLT

Your fields could use protection against Large seeded broadleaf weeds and Winter annuals from a dry formulation with two modes of action from FIERCE XLT.

FIERCE MTZ

Your field would benefit most with protection against heavy Palmer amaranth & Waterhemp with three modes of action for maximum control from FIERCE MTZ.
