

## Most Complete Seed Protection Against Pythium and Phytophthora

Introducing INTEGO™ SUITE Soybeans—containing the newest soybean fungicide seed treatment for control of Pythium and Phytophthora in over 35 years, now as an all-in-one premix. In field trials, *INTEGO SUITE* Soybeans yielded an average of 1.5 bushels per acre increase over standard seed treatment by protecting soybeans against Pythium, Phytophthora and other yield-robbing soil diseases and insect pests.

### INTEGO SUITE Soybeans Offers:

- ▶ **Protection for the entire plant**—Dual mode of action creates a complete zone of defense above and below ground
- ▶ **Protects against a wider spectrum**—Protects against a wider spectrum of Pythium and Phytophthora species plus insects and other diseases
- ▶ **User-friendly treatment**—Smooth flowability and low use rate ensures a consistent, even application and easy treatment experience
