

NipsIt[®] SUITE

SUGAR BEETS SYSTEM

WITH

RIZOLEX[™] FUNGICIDE

The most advanced way to beat early-season Rhizoctonia and Fusarium.

| Sugar Beets |

Total Seed Protection for Sugar Beets

The best got even better with Rizolex[™] Fungicide. NipsIt[®] SUITE Sugar Beets System¹ with Rizolex Fungicide combines four super-systemic active ingredients to provide unsurpassed seed protection and handling to maximize stand, sucrose yield and return on investment. NipsIt SUITE Sugar Beets with Rizolex is the most advanced way to beat early-season Rhizoctonia and Fusarium.

- **Unsurpassed, “Inside-Out” protection** with the next generation contact and super-systemic fungicide against the most important sugar beet diseases including Rhizoctonia, Fusarium and Pythium.
- **Leading edge management tool** for below and above ground insects including cutworm, flea beetle, springtail, wireworm, white grub, leafhopper, leafminer and root maggot .
- **Proprietary Lock Tight[™] Technology** delivers ease of use, outstanding retention on seed and unmatched protection of the grower’s single most important input – the seed.
