Zeltera™ Rice System: Powerful Seed Protection for a Strong Start

NEW Zeltera™ Rice System combines multiple fungicide modes of action and a powerful insecticide for above and below ground rice seed protection. With new technology for advanced protection from *Rhizoctonia*, *Zeltera Rice System* shields plant roots to deliver strong early- and late-season stand establishment and plant vigor, protecting yield. In addition to a powerful new fungicide, *Zeltera Rice System* brings proven early-season protection against a wide spectrum of insect pests.

- ▶ Excellent, long-lasting residual control of *Rhizoctonia solani*, including strobilurin-resistant strains
- ▶ Preventative and systemic activity to protect against seed decay, seedling blight and damping off caused by *Rhizoctonia solani*, *Pythium spp.* and other seed-borne and soil-borne fungi
- ▶ Protects against a wide spectrum of pests including grape colaspis, rice water weevil and chinch bug
- ▶ Offers improved root health and increased plant stand
- ▶ Offers smooth flowability in the seed treater to ensure a consistent, even application that is efficient for the seed treater operator to use

Zeltera Rice System Boosts Stand, Yield

Zeltera Rice System offers a layer of protection to plant roots, ensuring a strong stand and plant vigor protecting yield.
