

## Perpetuo<sup>®</sup> Herbicide Non-GMO Soybean Tank Mix Guide

Perpetuo<sup>®</sup> Herbicide is a post-residual that can help your non-GMO soybean fields stay clean through canopy. *Perpetuo* can be added into many weed management programs:

- ▶ Full rate of preemergence herbicide—Fierce<sup>®</sup> Herbicide, Fierce<sup>®</sup> EZ Herbicide, Fierce<sup>®</sup> MTZ Herbicide, Fierce<sup>®</sup> XLT Soybean Herbicide
- ▶ *Perpetuo* 6 fl oz/A plus postemergence tank mix partner application: 2- to 4-inch tall weeds
  - Ground applications: minimum 15 GPA with 35–60 PSI
  - Aerial applications: minimum 7 GPA

Tank Mix Partner	Weeds	Adjuvants
Basagran <sup>®</sup> Herbicide*	Common lambsquarters, common ragweed, smartweed, velvetleaf	COC 1–2 pt/A + AMS 2.5 lb/A or UAN 1–2 qt/A
Classic <sup>®</sup> Herbicide*	Burcucumber, common ragweed, giant ragweed, smartweed, velvetleaf	AMS 2 lb/A or UAN 2 qt/A + NIS 0.25% v/v or COC 1% v/v
Cobra <sup>®</sup> Herbicide*	Common cocklebur, common ragweed, eastern black nightshade, giant ragweed, morningglories, Palmer amaranth, waterhemp	COC 1–2 pt/A + AMS 2.5 lb/A or UAN 1 qt/A
FirstRate <sup>®</sup> Herbicide*	Burcucumber, common ragweed, giant ragweed, morningglories, smartweed, velvetleaf	AMS 2 lb/A or UAN 2.5% v/v + NIS 0.125–0.25% v/v or COC 1.2% v/v
Pursuit <sup>®</sup> Herbicide*	Common cocklebur, common lambsquarters, Eastern black nightshade, smartweed, velvetleaf	COC 0.125–0.25% v/v or NIS 0.25% v/v + AMS 2.5 lb/A or UAN 1–2 qt/A
Raptor <sup>®</sup> Herbicide*	Common cocklebur, common lambsquarters, common ragweed, Eastern black nightshade, giant ragweed, velvetleaf	COC 1% v/v or NIS 0.25% v/v + AMS 2.5 lb/A or UAN 1–2 qt/A
Select Max <sup>®</sup> Herbicide with Inside Technology™	Grasses, including volunteer corn	NIS 0.25% v/v or COC 1% + AMS 2.5 lb/A

\*Will not control resistant biotypes.
